VOLVO
for life

Congratulations! You are cordially invited to attend the preview of the Volvo XC90. It has been created with one purpose in mind – to make it possible to put a Volvo edge on everyday life. What's more, it will be appearing soon at a Volvo dealer near you. So get ready to experience Volvo in a way you've probably never imagined before.

THE NEW VOLVO XC90. EXPLORE LIFE YOUR OWN WAY.

"GOOD DESIGN is not only a matter of styling the surface. It is just as important to make the product easy to understand and use. If the product is not functional, it can't be beautiful" (The Volvo design philosophy)

INDIVIDUALITY. To understand the essence of true quality. To know what adds to style and personality. To appreciate natural purity and meaningful design. The new Volvo XC90 will take you all the way, in style and with ease.

FLEXIBILITY. Every day is new ... almost everything is exciting ... there's an adventure around every corner. I'm Superman ... a mountain climber ... a rock star ... an artist ... a parent ... a friend ... why are there only twenty-four hours a day? The Volvo XC90 -- for playing, creating and exploring.

Up to five adults and two children travel in first-class comfort in separate seats, surrounded by a wealth of thoughtful, comfort-enhancing touches. When needed, the rearmost seats conveniently unfold from the load compartment floor. And to enable you to carry all you need, each passenger seat can be folded individually. You get a flat load floor with plenty of additional storage compartments.

EMPOWERMENT. If the reason for getting there is quite simply because it is there ... or because you want to challenge your own capacity and learn something about yourself ... or because you want to have a good time in the company of good friends in the open air. The new Volvo XC90 is about doing things your own way. A thoughtfully designed vehicle, dedicated to usability and relaxation – whether you take the highway, the twisting country road or the remote forest track known only to a few.

You can fully enjoy the response of a nimble chassis and a powerful five- or six-cylinder turbo engine. The lightning-quick electronically controlled AWD system helps ensure enviable surefootedness and ability to get around – no matter the road or weather. And if you are forced to take extreme evasive action, the RSC active roll-stability control system will help you maintain control.

PEACE OF MIND. Certain trips remain a memory for life. Other trips are simply necessary. The Volvo XC90 enhances both safety and comfort – for a convenient and enjoyable life on the move.

The world-leading safety features that help save lives in other Volvo cars have been supplemented with ROPS, Volvo's roll-over protection system, and several other unique safety systems. In addition, the car's front is designed to reduce the risk of injury to other road users in an accident – whether occupants of smaller cars or pedestrians.
